

Chapter 6 Science Test:

Name:

Date:

Consider all of the forms of energy we've discussed in this chapter. Choose four that should be used more in the future and four that should be used less. Write an essay of at least 200 words.

I'll be looking for:

- A. Your clearly stated opinions
- B. With facts to support your evidence
- C. Use of concepts and terms from the chapter and my notes
- D. Correct usage of grade level grammar, capitalization and punctuation.

Example sentence: I think nuclear energy should be used more in the future because even though there is a risk of a cataclysmic disaster like Chernobyl, the rewards outweigh the risks.
